Did You Know...

...Monarch butterflies fly south for the winter? Traveling at speeds of between 12 and 25 miles per hour they are the only insect that migrates up to 2,500 miles for nicer weather.

...When leaves change color in the fall, they are actually becoming their true color? In the summer, the chlorophyll (which is how the leaves receive nourishment from the sun) takes over and causes them to turn green and hide their color.

...pumpkins are mostly water? About 90% of a pumpkin is water, just like their plant cousin the watermelon. You can even make pumpkin juice!

...the largest pumpkin pie ever made was in New Bremen, Ohio? It was 20 feet in diameter and weighed 3,699 pounds! It took days to bake, but was cut into 5,000 slices when it was finished.

Halloween Safety

Halloween Theme Week is October 22-27. We would love to see you in your Halloween costume, but for safety reasons **we don't allow any costumes or Halloween make-up in the gym** (although you may see some of our staff looking somewhat "ghoulish" that week)!

Make A Difference Day

National Make A Difference Day is an annual community service event which is held on the fourth Saturday in October (Saturday, October 27th). Every year, millions of people unite in the common mission to improve the lives of others.

Prairie Gymnastics Club encourages you to get your family involved in giving back to your community! Ideas for giving back: donate books/toys/clothing to children in need, pick up trash at a local park, set up a food drive for the local pantry, or help a neighbor with yard work.
