## Did You Know...

...If the last two digits of the year are divisible by four (e.g. 2016, 2020, 2024...) then it's a leap year? Century years are the exception to this rule. They must be divisible by 400 to be leap years—so, 2000 and 2400 are leap years, but 2100 will not be one.

...The odds of being born on a leap day are 1 in 1500?

...The frog is a symbol associated with February 29th?

...The Australian rocket frog can leap over two meters (~6.56 feet)?

# Happy Birthday!
